JSfirm.com and the Aerospace and Defense Training Center Partner to Accelerate Careers in Manufacturing

Roanoke, Texas (September 10, 2024) - JSfirm.com is excited to announce a strategic partnership with the Aerospace and Defense Training Center (ADTC), a leader in accelerated manufacturing training. This collaboration will integrate ADTC's specialized, job-focused training programs with JSfirm.com's extensive Job Distribution Network, creating a streamlined path from training to employment.

ADTC is renowned for its rapid, six-week training programs that prepare individuals for careers in the aerospace and defense sectors. Their mission to build a reliable and skilled workforce aligns perfectly with JSfirm.com's commitment to connecting job seekers with top industry opportunities.

Through this partnership, ADTC's graduates have better access to JSfirm.com's extensive job listings directly on ADTC's website, offering them a competitive edge in the job market and aiding employers in finding qualified candidates.

Laurie Elliott, Partnership Manager for JSfirm.com, shared her excitement about "expanding JSfirm.com's reach into the aerospace and defense industries. While ADTC trains quality candidates, we will be linking them to profitable careers."

"The Space Coast ADTC is working tirelessly to provide locally advanced manufacturing industries the qualified workforce they need to prosper and grow," said Steve Kane, Executive Director of SpaceTEC Partners, Inc. "Our accelerated skills training model adds a new dimension that will have a positive effect on the skilled labor shortages that are hampering the industry... We can now link our graduates to not only local openings, but—for those willing to travel—to openings across the country."

Any aviation schools, programs, or associations interested in becoming a JSfirm.com Job Distribution Partner can contact Laurie Elliott directly at laurie@jsfirm.com.

About the Aerospace and Defense Training Center

The Aerospace and Defense Training Center specializes in accelerated manufacturing training, designed to rapidly equip individuals with the skills needed for careers in the aerospace and defense industries. ADTC is dedicated to creating a skilled workforce to meet the critical needs of the Space Coast and beyond.
